

hi-String are the original earbuds designed with the innovative and unusual shape of a pair of strings with cables entirely made of fabric! With hi-String you can enjoy the best audio quality while listening to your music and making phones calls to your friends: the BBS technology (Bass Boost System) gives you the very best sound quality thanks to the bass enhancement and the perfect isolation from outside noises. Volume control, microphone and multifunction button are integrated to the shuffle controller so as to be able to select music tracks and manage your calls hands free. Enjoy your music with hi-String: connect it to your music player and get the most out of your playlists with a cool urban style!
