## Learning function instruction for Five Grey TV buttons

1. Press [SET] button for 3 seconds until red LED light stays lit up. Now this remote is in Learning Mode. It would quit Learning Mode automatically after 15 seconds if no button clicked.
2. Place TV remote with this Box remote head to head, keep the distance in 1 inch.
3. Click Power button of Box remote (designed for TV), red LED light would start to flash; now click power button on TV remote. The red LED light would quickly flash 3 times, that means this button has been successfully mapped.
4. If you want to map other buttons from TV remote to Box remote, please repeat step 3.
5. Click [SET] button to quit this Box remote learning mode.

# 4K HDR SMART TV BOX Quick Guide
