

## **NEW BLUETOOTH MIKE!**

MODEL CODE

# **WA-MIKE**

C1263

**WA-MIKE** is the new **Bluetooth wireless mike** which makes WA range complete.

Midland big news, with WA-MIKE you can **communicate wireless** with your cb trasceiver!

WA-MIKE is different from the traditional mikes, is very practical and makes you free from the cables. Furthermore you can get out your truck while keep using remotely WA Mike till a distance of 10 m.

To enable this system you have to make Bluetooth your transceiver thanks to Midland WA-Dongle adapters fitted with 2-pin Midland (WA-Dongle), 2pin Kenwood (WA-Dongle K) e 2pin Motorola (WA-Dongle M) – and than you have to pair the adapter to WA-MIKE.

The WA MIKE big news is the oppurtunity to use it **simultaneously** also with your mobile phone (of course it must be paired to the mike)! Thanks to WA-MIKE **you can also make and answer calls** without taking your mobile phone in your hands! (note: this is possible with all mobile phone with vocal call function)

#### **Main functions**
