

Additional remote control for PNI CA500 relay

Safety warnings

The remote control is intended exclusively for use with the PNI CA500 relay. Do not use the device for purposes other than those specified by the manufacturer.

Do not expose the remote control to strong mechanical shocks, excessive moisture or extreme temperatures. These conditions may damage the device or lead to malfunction.

Use only the recommended battery type.

Remove the battery if the remote control will not be used for a long period of time.

The operation of the remote control may be affected by radio or electromagnetic interference from other devices.

Do not attempt to disassemble or repair the remote control. Any unauthorized intervention may void the warranty and may lead to permanent product failure.

Pairing the remote control

Briefly press the learning button. The LED lights up.

Press button A on the remote control. The red LED flashes 3 times then remains on to confirm that button A has been learned to control the first relay. The red LED remains on.

Press button B on the remote control. The red LED flashes 3 times then goes off to confirm that the learning has been done.

Repeat the procedure to learn additional remote controls.

Delete the remote control

Press the learning button until the LED turns off. Release the button. The LED will flash 3 times to confirm that all remotes have been deleted.

Technical specifications

Power supply	23A 12V battery
Channels	2
Dimensions	50 x 40 x 18 mm
Frequency	433 MHz

Transmission power	10 mW ERP
Working temperature	-26°C ~ 80°C

Simplified EU declaration of conformity

ONLINESHOP SRL declares that the Additional Remote Control for PNI CA500 Relay is in compliance with RED Directive 2014/53/EU and ROHS Directive 2011/65/EU. The full text of the EU declaration of conformity is available at the following internet address:

Telecomanda suplimentara pentru releu PNI CA500

Avertizari de siguranta

Telecomanda este destinata exclusiv utilizarii impreuna cu releul PNI CA500. Nu folositi dispozitivul in alte scopuri decat cele specificate de producator. Nu expuneti telecomanda la socuri mecanice puternice, umezeala excesiva sau temperaturi extreme. Aceste conditii pot deteriora dispozitivul sau pot duce la functionarea defectuoasa.

Utilizati doar tipul de baterie recomandat.

Scoateti bateria daca telecomanda nu va fi folosita pentru o perioada indelungata.

Functionarea telecomenzii poate fi afectata de interferente radio sau electromagnetice provenite de la alte dispozitive.

Nu incercati sa dezamblati sau sa reparati telecomanda. Orice interventie neautorizata poate anula garantia si poate duce la defectarea permanenta a produsului.

Imperechere telecomanda

Apasati scurt butonul de invatare. LED-ul se aprinde. Apasati butonul A de pe telecomanda. LED-ul rosu clipeste de 3 ori apoi ramane aprins pentru a confirma invatarea butonului A pentru comanda primului releu. LED-ul rosu ramane aprins.

Apasati butonul B de pe telecomanda. LED-ul rosu clipeste de 3 ori apoi se stinge pentru a confirma invatarea.

Repetati procedura pentru invatarea de telecomenzi suplimentare.

Stergere telecomanda

Apasati butonul de invatare pana cand LED-ul se stinge.

Eliberati butonul. LED-ul va clipi de 3 ori pentru a confirma stergerea tuturor telecomenzilor.

Specificatii tehnice

Alimentare	Baterie 23A 12V
Canale	2
Dimensiuni	50 x 40 x 18 mm
Frecventa	433 MHz
Putere de emisie	10 mW ERP
Temperatura de lucru	-26°C ~ 80°C

Declaratie UE de conformitate simplificata

ONLINESHOP SRL declara ca Telecomanda suplimentara pentru releu PNI CA500 este in conformitate cu Directiva RED 2014/53/UE si Directiva ROHS 2011/65/EU. Textul integral al declaratiei UE de conformitate este disponibil la urmatoarea adresa de internet:
