Ghid rapid instalare APP si configurare Wi-Fi

1. Mai intai, descarcati si instalati aplicatia TTLOCK

1） Telefon mobil Android: va rugam sa scanati codul QR de mai jos.
2） Telefon mobil Apple: va rugam sa cautati „TTlock” in App Store

3) Inregistrati un cont nou sau conectati-va cu un cont existent in aplicatie.

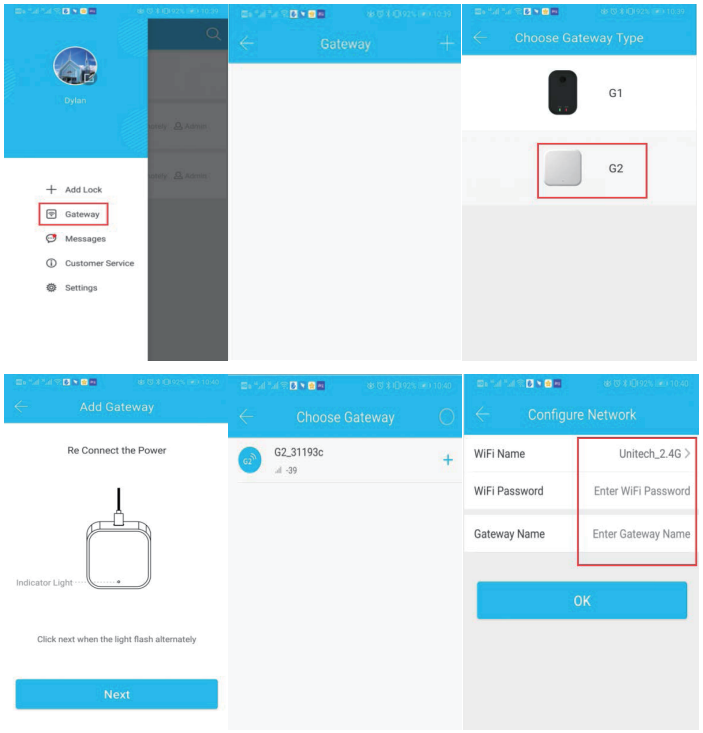
2. Conectare gateway G2 (Wi-Fi)

Yala este conectata direct prin Bluetooth, de aceea nu pote fi atacata prin retea. Gateway (Poarta de acces) este o punte intre yalele inteligente si retelele WIFI de acasa. Prin intermediul gateway-ului, utilizatorul poate vizualiza si seta de la distanta timpul de blocare a yalei, poate citi istoricul deblocarilor si poate modifica parola.

1） Adaugare gateway

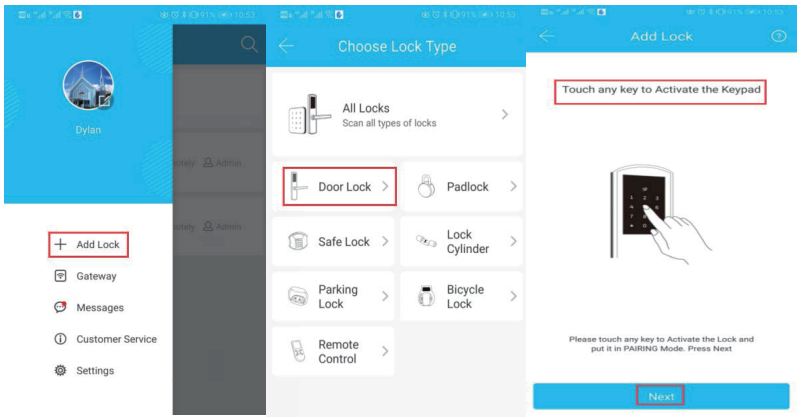
Alimentati mai intai gateway-ul.

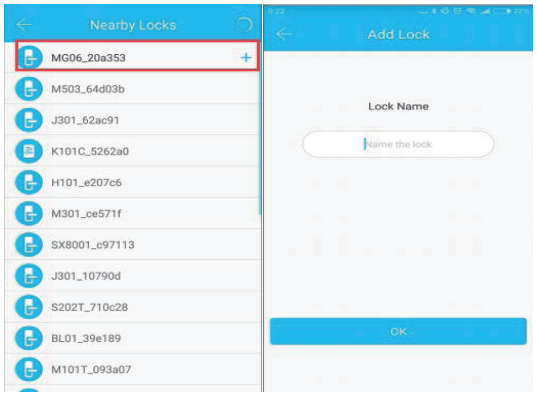
Apoi urmati pasii din imaginile de mai jos:



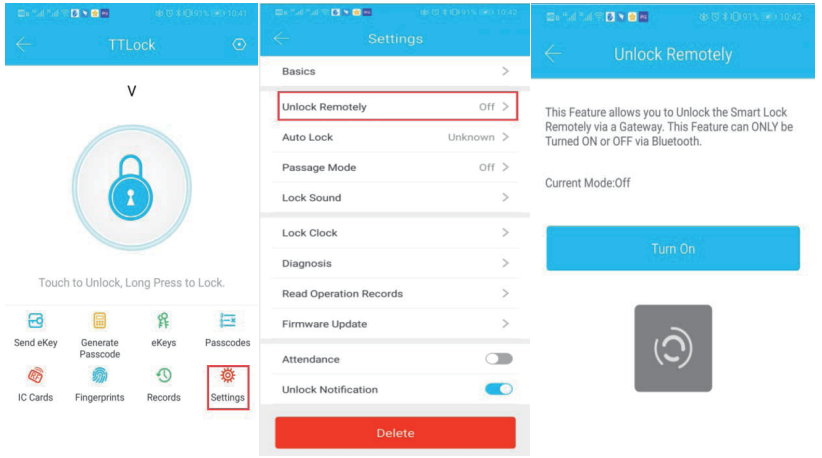
3. Adaugare Yala.

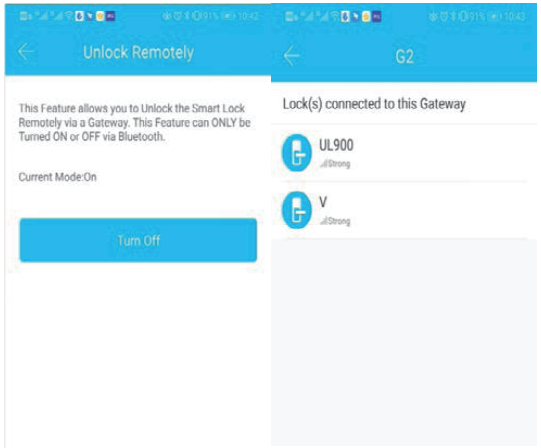
1) Lasati bateria instalata in yala, apoi urmati in aplicatie pasii de mai jos:





2） Activati gateway-ul:





Odata conectat gateway-ul, puteti vedea yala dvs. afisata in lista dispozitivelor conectate la acel gateway.

4. Soneria video

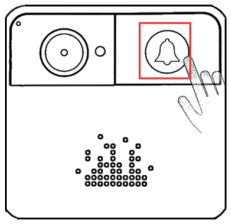
Descarcati aplicatia:

1) Scanați codul QR pentru a descarca aplicatia ICsee

2) Sau cautati si descarcati „iCsee” in Appstore sau Google Play.

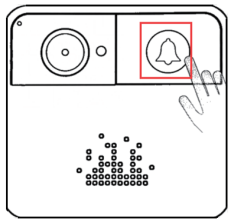
Adaugati soneria video

1) Apasati butonul soneriei pentru a o activa.

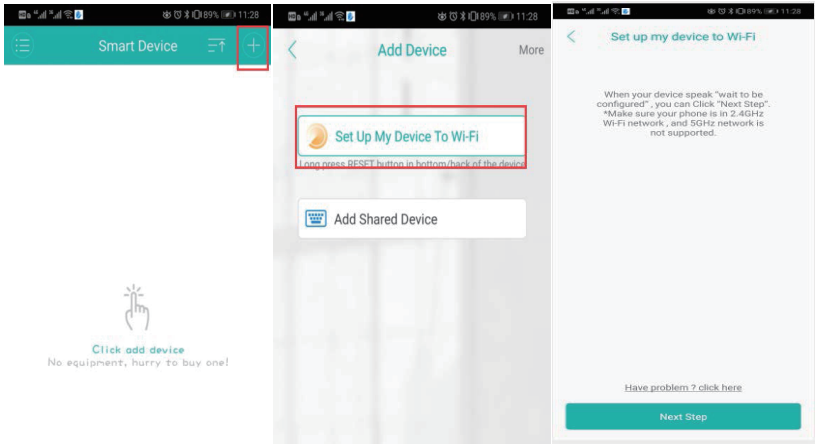


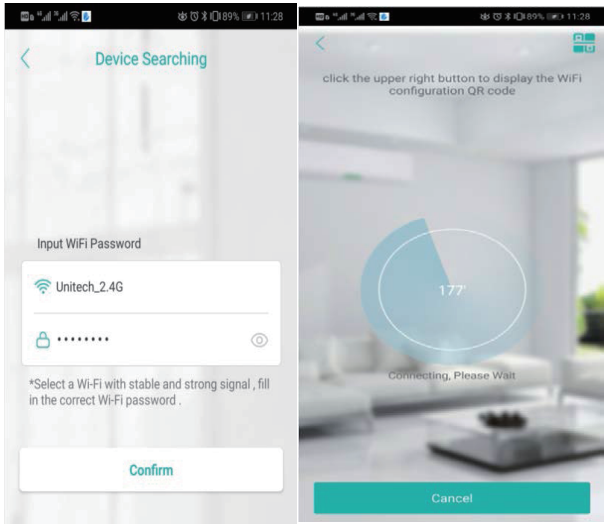
2) Apasati lung butonul RESET timp de 3 secunde

3) Resetarea va fi confirmata vocal.
4) Activati din nou soneria, un prompt vocal confirma configurarea rapida in aplicatie.



5) Configurare in aplicatie:





Note:

1. Odata instalata soneria, puteti vorbi cu vizitatorii direct prin aplicatie. CPentru a vorbi apasati butonul din aplicatie
2. Daca totul functioneaza bine, puteti instala soneria pe perete i yala pe usa. Gateway-ul trebuie sa fie conectat la alimentare tot timpul.
3. Lasati aplicatia sa ruleze in fundal, ca sa puteti raspunde la timp unui apel.
